Creating digital technologists for in-demand job roles

Manchester Digital

} Our focus is to bring more diverse talent to the job market, for you to recruit. Our 14 week multidisciplinary skills bootcamp will train learners from all backgrounds and experience in:

// Coding and computing fundamentals
// Cybersecurity
// Technical sales innovation
// Creative digital & tech for good
// Digital business and entrepreneurship
// Employability and business readiness skills.

Our bootcamps align to at least 9 apprenticeship and degree apprenticeship standards and provide an excellent bridging route into specialist career pathways.

Whether you're a corporate, SME or start up, we can provide a diverse and skilled candidate talent pool for you to meet.

Employers..are you?

> Growing your tech and product teams?
> A start up looking to expand?
> A tech company committed to investing in early talent?
> Investing in talent through apprenticeships?
> A non-tech company wanting to attract digital talent?

Come and meet our diverse talent pool of 120 candidates, ready to recruit, at ~~no cost~~ to you.
